DETAILED ACTION

1. Applicant's election of group I, claims 32-59 in Paper No. 10 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

2. Claims 35, 36 and 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) Claim 33 has been amended to recite "R' represents hydrogen or an anionic hydrocarbyl ligand" and applicants have not traversed the examiner's previous assertion that the accepted meaning of "hydrocarbyl" is a group consisting of carbon and hydrogen. Accordingly, this definition is used to interpret the scope of R'. As such, claims 35, 36 (as dependent thereon) and 43 are indefinite in view of these claims' inclusion of structures wherein the selections for group R' include groups which are clearly not hydrocarbons. Specifically, such groups include halogenated and other hetero-substituted groups which result in the structures being outside the scope of "hydrocarbyl". The scope of the claims is indefinite because it is not understood how heteroatom-containing structures could be within the scope of "hydrocarbyl".

Claim Rejections - 35 USC § 102

3. Claims 32 and 56 are rejected under 35 U.S.C. 102(b) as being anticipated by Suld et al. (US 4,100,338) for the reasons set forth in item 7 of the Office action mailed 6/9/2003.

4. Claims 32, 44-51, 55, 57 and 58 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al. (US 5,714,556) for the reasons set forth in item 9 of the Office action mailed 6/9/2003.

5. Claims 32, 44-52, 55, 57 and 58 are rejected under 35 U.S.C. 103(a) as being unpatentable over Okamoto et al. (US 5,629,398) for the reasons set forth in item 10 of the Office action mailed 6/9/2003.

6. Applicant's arguments filed 9/12/2003 have been fully considered but they are not persuasive. Applicants argue essentially the same point with respect to all three references. Traversal is based upon the assertion that the references describe compositions which result in a polymerization, and are therefore outside the scope of the claims because the claimed compositions are not intended to polymerize. However, this argument is ineffective because it is based upon limitations which are entirely lacking in the claims. There is nothing in the claims which precludes a polymerization reaction, or any other reaction. All of the claims include the open-ended structure of

independent claims 32 and 44 which recites that the composition "comprise" certain components, and therefore the claims are open to any and all additional components, including those which induce polymerization. As currently drafted, the claims are anticipated or rendered obvious by any composition which includes the minimum claimed components, regardless of whether additional components or reaction processes occur.

Allowable Subject Matter

7. Claims 33, 34, 37-42, 53, 54 and 59 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
